

Helvetica-Europe is the only European branch of Russian holding Helvetica. With its great support and wide working network the company can provide its clients with basically any material needed for their advertising application.

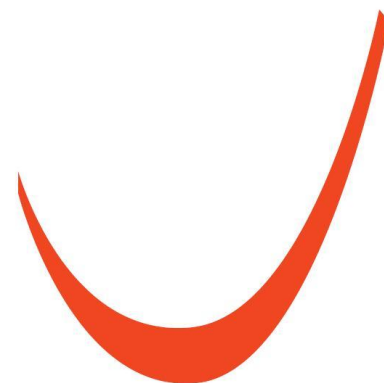

Covering the whole advertising sector, the company works in five main fields which will be introduced to you in the following slides.

# LED lighting

Helvetica-Europe created its own brand for all offered LED products called “**QuaLED**“. This brand ensures top quality, reliability and functionality.

Main range of QuaLED products includes many kinds of **LED modules** (different sizes, epistar or cree chip, single-coloured or RGB) and **LED strips** for different applications, **LED wall washers, spotlights, tubes, bulbs, controllers, LED power supplies** and many other.

# Self-adhesive Tapes

Helvetica-Europe is in a long-term friendly relationship with one of the top producers of self-adhesive tapes in Europe, Dutch company Multifoil.

Thanks to their great support our company offers full range of various products for different applications as **AntiDust tapes** for building industry, **foam and film tapes** for advertising industry and many **special tapes** for basically any application you can think of (velcro systems, banner tapes, aluminium tapes, butyle tapes, etc.)

# Sheet Materials

A big part of the whole advertising industry is formed by different sheet materials. Helvetica-Europe provides its customers with:

- Aluminium Composite Panels Alupanel (various thicknesses, sizes, coatings, fireproof, etc.)
- PVC, PMMA, PET-G sheets and other plastics.

# Self-adhesive Films

To cover a wide demand Helvetica-Europe cooperates with three different producers of films for advertising. This enables us to find an ideal solution for all specific applications.

Just tell us what do you need the film for and we will come back with the best offer.

# Laminating technology

Helvetica-Europe entered this exciting field to offer its customers the all-in-one solution for laminating and final finishing of any material you work with (laminates, vinyl, tapes, etc.).

We cooperate very closely with British producer Vivid to make sure our customers get precisely what they need to make their business more effective. Vivid's Easymount series is the best choice to make this happen.

**Helvetica-Europe, s.r.o.**
